## Vectron MobileApp

Intuitive, reliable POS App

### SIMPLY CONVENIENT

The POS app is extremely easy to use. You have all functions under control within a few minutes. Mobile cashing couldn't be more convenient.

### CLEVER COMBINATION

In favour of intuitivity and speed, the MobileApp focuses on the essential basic functions. More complex operations are handled by the stationary server system connected via WI-FI.

### FOR IOS & ANDROID

Choose the smartphone and operating system that suits you best. The App works on mobile iOS- and Android devices.

### Your benefits

- ▶ **Reduced personnel expenses**  
Mobile cashing reduces paths & optimises order processes
- ▶ **Convenient**  
Book & invoice at the table with Wi-Fi belt printer
- ▶ **Fail-safe**  
No internet required

## TOP FUNCTIONS

With just a few intuitive taps, orders can be entered or changed and receipts can be closed. A clearly arranged guest check management, PLUs that are grouped into product groups and search functions support the workflows. Free multiplier and price input is possible and you can enter condiments and menu courses, print entertainment expenses and split guest checks. All the common payment modes are available for finalization.

## OUTSTANDING SERVICE

Vectron products are distributed via a close-knit network of qualified specialist trade partners. This guarantees the provision of expert advice, individual solutions and reliable 24/7 service provision\* on-site or via our hotline.

## FLEXIBLE TERMS

You can book the app on a monthly basis and use it, for example, only in seasonal business. The MobileApp can be subsequently integrated into existing Vectron POS installations.

## MYVECTRON SERVICES

Use the advantages of digitization: Stay competitive with our cloud-based myVectron Services. Reservation and customer retention tools allow you to create individual campaigns with minimum effort. With our real-time reporting, you always have an overview of your most important key figures.
