Everything. Perfectly served.

Mobile solutions. Ideal for your business.

VECTRON POS M4

The new generation of mobile POS systems

At peak times, with high customer frequency and in establishments with long walking distances, the **VECTRON POS M4** is a robust technical companion for your service staff. Where every minute gained means turnover, the mobile Vectron POS system keeps pace, reduces order times and saves the staff many metres per shift.

For the first time, the popular and proven **VECTRON VPOS** software is used under Android. This makes the **VECTRON POS M4** a fully-fledged and independent mobile POS system. Alternatively, it can also be operated with the **VECTRON MobileApp**.

The large 5.5 inch LED colour display with extra hard Corning Gorilla Glass on the touch screen ensures comfortable operation and the fast Quad-Core processor processes even the most extensive orders with its performance.

With the certified IP65 protection class, the **POS M4** is protected against dust and water and is also drop-proof up to 1.5 m.

You scan bar codes and customer cards directly with the built-in camera and the fast WLAN of the **POS M4** provides a wide-ranging and stable connection at all times.

Hardware

▶ Usable with VECTRON POS or MobileApp

▶ Fast ARM Cortex 1.8GHz, Quad-Core Processor

▶ Large 5.5" LED colour display with capacitive HD-touch screen with Corning Gorilla Glass, 1440 x 720 Pixels

Vectron MobileApp
Intuitive, reliable POS App

With just a few touches, orders can be entered or changed and receipts can be closed. A clearly arranged guest check management, PLUs that are grouped in departments and search functions support the workflows. Free multiplier and price input is possible and you can enter condiments and menu courses, print entertainment expenses and split guest checks.

SIMPLY CONVENIENT
The POS app is extremely easy to use. You have all functions under control within a few minutes. Mobile cashing couldn't be more convenient.

FOR IOS & ANDROID
Choose the smartphone and operating system that suits you best. The App works on mobile iOS- and Android devices.

Free download and test in demo mode without registration.

▶ Easy, intuitive operation

▶ PLU selection via main groups and departments

▶ Informative guest check overview

▶ Flexible terms

▶ Can be combined with all stationary and mobile Vectron POS systems

▶ Stationary Vectron POS system works as server

▶ Works without Internet

▶ Data backup in the POS system

myVectron App

The myVectron App ensures that you constantly have an overview of your most important company figures via smartphone and tablet.

▶ Clear graphics for sales, invoices, products and personnel

▶ Daily turnover company-wide and by branch

▶ Turnover forecasts, trends and projections

The multifunctional terminals

Operating device, EC device and optional invoice printer

The **VECTRON A920 PLUS** and the **VECTRON A77 PLUS** are the revolutionary new terminals for all kinds of applications. The powerful hardware together with our optimised software make them the perfect mobile devices for your business. All bundled in a modern and ergonomic design. Thanks to the Android operating system, there are also countless future-proof application options. The **VECTRON A920 PLUS** bundles the processes of service, EC card payment and invoice printing and allows faster handling of your guests with significantly less effort. The slimmer **VECTRON A77 PLUS** does without the built-in invoice printer. The multifunctional terminals with included MobileApp (subject to licence) are the perfect complement to your stationary Vectron server system, **they save ways** and **speed up processes**.

This makes you noticeably more efficient and you only have to use one central device for all processes.

Magnetic stripe reader

NFC interface

Thermal printer

Chip card reader

VECTRON A920 PLUS & A77 PLUS

Smart all-in-one-terminal with a plethora of features

The large LED colour displays with capacitive HD touchscreen offer plenty of space to comfortably take any order. You operate the terminal as you would operate your smartphone.

Take card payments with the chip card reader or contactless via the NFC interface. Equipped with fast WLAN, the **VECTRON A920 PLUS** and the **VECTRON A77 PLUS** always provide a perfect connection. You easily scan barcodes and customer cards directly with the camera.
The integrated thermal printer of the **VECTRON A920 PLUS** allows you to print receipts directly onto 40mm ∅ paper rolls.
